SUMMARY

I am a creative geek with singular approaches to problem solving and decision making. I enjoy helping others succeed as well as getting my hands dirty both coding and designing. Over the past 9 years, I've acquired a broad set of skills and a deep knowledge of user interface design and Web technologies. I'm looking for a position that will allow me to bring these assets to bear on interesting and compelling projects in Web development, Interactive Marketing, or related areas. Feel free to contact me about your needs. I will provide references upon request.

SKILLS AND SOFTWARE PROFICIENCY
